## Obituary Index

The following list contains information from the obituaries stored at the North Andover Historical Society. The information from each obituary is organized into seven sections including Last Name, First and Middle Names, Maiden Name (when applicable), Date of Birth, Date of Death, Age at Death, and Location/Binder, along with a section for any extra notes. The obituaries are listed in alphabetical order. All of the information was taken directly from the paper copies of the obituaries, so note that there may be information missing in certain sections depending on what was included in the original obituary. This list was created to organize our physical obituary holdings and create a searchable database to provide easier access for staff, volunteers, patrons, and researchers. If you are interested in viewing a particular obituary in full, please contact the archivist at the North Andover Historical Society at [archives.nahistory@gmail.com](mailto:archives.nahistory@gmail.com).
