## **Index to People Photos**

This inventory was created in an attempt to consolidate information about the North Andover Historical Society's extensive collection of people photos. The collection includes images of persons who resided or worked in North Andover, as well as friends and family members of prominent citizens. It spans from the 1840s to present, and is composed of portraits, miniatures, daguerreotypes, ambrotypes, tintypes, carte de visites, cabinet cards, prints, sketches, and silhouettes.

This listing is not yet complete, and should not be considered a comprehensive inventory of the Historical Society's photograph collection. Only images of people who have been identified are included, and the majority of group photos and school pictures are not yet represented in the current inventory. Several family albums have also not yet been cataloged.

If you are interested in procuring scans of a photograph listed in this inventory, please contact the archivist at the North Andover Historical Society at: [archives.nahistory@gmail.com](mailto:archives.nahistory@gmail.com). It is most helpful if you include the full name of the person you are interested in, accession number (when available), series, scan folder, and scan ID [as noted in the following index pages].
